

Drink Easy

Make safer thickened drinks with your phone.

For Clinicians

**You prescribe the level.
We'll help with the rest.**

1

Open Drink Easy on your phone
and Tap Share for a QR code.

2

Scan with your patients phone
and save to their home screen.

3

Tap Patient. Enter their number and
choose their prescribed Level.

4

See all the Slō Drinks that can be
made and how to make them.

Then send them home with:

- Guidance for their prescribed Level
- Step-by-step drink instructions
- A built-in thickening timer
- Precautions, allergen and dietary information
- Something they can refer back to – instead of another printed leaflet

Everything else in the palm of your hand.

Drink Easy also gives you direct access
to the Clinicians Library for:

- Patient samples
- Prescription requests
- Data sheets

For Patients & Carers

**The instructions you need.
When you need them.**

And while you're waiting:
Slō Sounds – Enjoy the Wait Album

Drink Easy stays on your phone, with
guidance for your prescribed IDDSI Level.

- How to make different drinks
- What you can – and can't – make
- Step-by-step preparation guidance
- Built-in thickening timer
- Precautions, allergens and diets
